2. Objective of the policy

The Solar Environmental Policy provides high-level guidance on how the business can contribute to a more sustainable world with the least possible environmental footprint. We constantly work to reduce our CO2 emissions and as a Sourcing & Services company we have no energy consuming production processes.

3. Policy

It is Solar Group policy to comply with all applicable laws and regulations of the countries and regions in which we operate to cause the least possible harm to the environment.

Solar run a responsible business that rely on our expertise in bringing products and solutions to market. Solar are contributing to a more sustainable world by placing demands on our suppliers and continuously seek solutions for a more environmentally friendly performance of our operations to bring down our environmental footprint.

Solar has defined the following environmental focus areas:

- Reduce the Co2 emission of our operations.
- Reduce the generation of waste
- Improve our processes and prevent pollution
- Increase our share of green energy consumption
- Improve and provide digital services that turn our customers into winners.and put less strain on the environment
- Provide training and develop employees within the environment and sustainability

Solar will maintain the focus on energy-efficient solutions, innovation and continuous improvement to meet new environmental challenges and provide best-in-class services to ensure sustainable use of resources. And continue to focus on our environmental footprint for the benefit of our customers, our shareholders and employees.

We call it **green together**.
